

Conductive Disturbances

1° AV Block PR Interval ≥ 0.2 sec.

2° AV Block
Type I (Wenckebach) – Progressive Prolongation of PR Interval Prior to Block of an Atrial Impulse

2° AV Block
Type II – Conduction Fails Suddenly Without a Change in Proceeding PR Interval

3° AV Block
No Relationship Between the P Wave and QRS Complexes,
QRS of Ventricular Origin (Wide), Ventricular Rate 30-40/min.
